Dear Sir/Ma'am,

I am writing to you today, hoping to briefly introduce myself and demonstrate my capabilities and achievements within the ever growing and demanding sector of Computer Science.

I have completed my undergraduate programme at Feroze Gandhi Institute of Engineering & Technology (Govt. Aided) affiliated to U.P.T. U where I have been pursing B. Tech in Computer Science & Engineering Branch.
I am graduated in July 2016 and therefore am eager to secure an existing position with your company for my future.

My course has focussed on a variety of specialist tools such as C, Operating System, Web Development, Software Engineering, OOTs using Java, Data Structures, Computer Networks. These have assisted me in broadening my knowledge while showing me the diverse side of Computer Science that I find fascinating.

I have gained further experience aside from my studies, through the summer internship program at Evergreen Agro Bio-Tech Pvt. Ltd. , the time spent there opened my eyes further to the creative challenges required in the industry and how it is forever evolving. I rapidly adapted to the new work culture and team members who became trusted associates throughout my time spent there.

I am confident that I would be an appreciated and welcome asset to your company and I hope that you will give me the chance to interview for the available position as soon as possible.

I thank you for your time taken today.
Looking forward to hearing from you.

Kind Regards,
Rishabh Pandey
